

**Explicit Curriculum Assessment Data Collected during the Academic Years 2023-2024
Lesley University MSW Program
Generalist Practice**

The tables below are provided by the Council on Social Work Education (CSWE) to document the most recent summary data and outcomes for the assessment of each of the nine competencies. In this reporting of assessment data, the MSW program currently meets the benchmark for all nine competencies. The data below is based on an n=30 students who entered the program during these two academic years, as well as n=20 students who graduated during these academic years. We will continue to monitor the percentages for benchmark attainment on each competency as the number of our students increase. If the percentages remain at this level, we will re-think our benchmark percentages and reevaluate the assignments and rubrics designed for assessment.
